Omnisports
HETEROGENEOUS VINYL

Let’s play
Omnisports provides ideal innovative floorings for young athletes and children. For them, performance and pleasure should be their only concern. Omnisports floorings meet the highest environmental and health standards allowing sports to be played in stimulating and safe surroundings.
OMNISPORTS
ENJOY PLAYING, FEEL SECURE

PLAY IN A HEALTHIER ENVIRONMENT
- Contribute to friendly sports spaces:
  - Contribute to lung protection thanks to extremely low VOC emissions.
- Choose the right product for your facility, from practice in schools to competition level.
- Enhance sports performance* thanks to good energy return.
- Guarantee an adequate & consistent level of ball bounce for handball, basketball, volleyball and other sports.
- Accommodate non-sporting events while providing ideal performance for sports practice.
- Provide a better grip for control when sliding.
- Reduce fatigue throughout sports practice.
- *Except for Omnisports Compact

PLAY SAFER
- Minimize the risk of injury with integrated cushion backing.
- Provide shock absorption levels for all ages, weights and levels of play.

Higher performance & versatility

More comfort & pleasure
- Guarantee good underfoot comfort.
- Reduce noise levels thanks to cushion vinyl acoustic.
- Allow for personalized installations with a choice of 24 colours.
- Boost children’s energy levels with vibrant colours.

Easy to maintain, durable & sustainable

Appreciate resistance to:
- Stains & scratches.
- Indentation marks.
- Rolling load.
- Reduce maintenance costs
- TopClean XP engineered surface treatment
- Choose GREENLAY Unique Installation Method

Extremely convenient and sustainable:
- 20% faster installation
- 98% adhesive free
- Easy removal

Healthier & safer environment

Higher performance & versatility

More comfort & pleasure

Easy to maintain, durable & sustainable

Guarantee an adequate & consistent level of ball bounce for handball, basketball, volleyball and other sports.

More comfort & pleasure

Enhance sports performance* thanks to good energy return.
The EN 14904 standard is the basis of the EC marking for indoor sports surfaces. This standard is mandatory and specifies certain requirements for Multi-Use sports surfaces in indoor facilities. The standard guarantees a safe and adapted surface for sports performance and comfort, as well as a durable and resistant flooring throughout its lifespan.

≥25% SHOCK ABSORPTION

OMNISPORTS VINYL FLOORING SOLUTIONS
TO MEET ALL YOUR NEEDS
PLAY IN A HEALTHIER ENVIRONMENT

Indoor air quality is essential for the health of athletes and especially children who are exposed to higher risk of indoor pollution to immature lungs.

Exposure risk with indoor pollution

WITHOUT sports activity

ATHLETES during sports activity

CHILDREN during sports activity

OMNISPORTS CARES ABOUT INDOOR AIR QUALITY

OMNISPORTS CONTAINS NO PHTHALATES

In 2009, Tarkett launched the first vinyl flooring range with phthalate free technology designed with renewable plasticizers which are also used in the children’s toy industry.

OMNISPORTS MINIMIZES THE RISK OF RESPIRATORY DISEASE THANKS TO EXTREMELY LOW VOC EMISSIONS

All Tarkett Sports floors contribute to better air quality with under 10µg /m³ TVOC emissions (after 28 days) - 100 times lower than standard levels.

OMNISPORTS REDUCES POLLUTANT EFFECT THANKS TO 98% ADHESIVE FREE UNIQUE INSTALLATION METHOD

Greenlay® installation method is unique and convenient, improving air quality with minimum use of adhesive. (Please refer to page 15).

OMNISPORTS REDUCES POLLUTANT EFFECT THANKS TO 98% ADHESIVE FREE UNIQUE INSTALLATION METHOD

Greenlay® installation method is unique and convenient, improving air quality with minimum use of adhesive. (Please refer to page 15).

PLAY SAFER

Protecting players is our first concern. Omnisports provides different levels of shock absorption, impact deflection, friction and playing characteristics adapted to the different ages, weights and skill levels of sports users.

- Omnisports minimizes the risk of injury and fall impact.
- Homogenous Omnisports embossed surface and treatment* contributes to limiting friction burn risks and provides safer protection with anti-slip grip on all patterns and colours.

Shock absorption levels vary according to players’ weight

Lightweight players

Best option: Omnisports Reference Multi-Use, Excel & Pureplay.

Heavyweight players

Best option: Combined elastic (Lumaflex range) or area-elastic (wood) surfaces.

In 2009, Tarkett launched the first vinyl flooring range with phthalate free technology designed with renewable plasticizers which are also used in the children’s toy industry.

OMNISPORTS EN 14904 CERTIFIED

*Except Dancefloor.

**Omnisports Reference Multi-Use, Active, Excel & Pureplay.
PERFORM WITH PLEASURE AND COMFORT

Tarkett’s range of point elastic sports flooring is designed to adapt to the needs of all athletes from leisure to high level performance requirements.

NEW SOLUTIONS FOR MULTI-USE FACILITIES

Omnisports Reference Multi-Use 6,1 mm is the ideal flooring for basketball, volleyball, and many other sports, while at the same time easily accommodating non-sporting events.

- P1 level shock absorption ≥ 25%.
- Exceptional resistance to indentation ≤ 0.1mm.
- Available with Greenlay unique installation method. (Please refer to page 15.)

Acoustic reduction and comfort

Improved overall acoustic comfort:

- Boost players energy levels with vibrant colours.
- Helps reduce the risk muscle fatigue.
- Helps reduce the risk of joint erosion.
- Uniformly reactive surface for consistent ball bounce.
- Good energy return.
- Good underfoot comfort.
- Better grip control when sliding to support sport movement.
- Helps reduce risk muscle fatigue.
GREENLAY UNIQUE INSTALLATION METHOD

Greenlay is a sustainable loose-lay installation method - only 2% of the surface is glued - offering an economical and easy installation solution. This unique method is made possible by:

- The product’s exceptional dimensional stability (0.10%)
- Omnisports reference Multi-Use, Active, Excel & Pureplay
- The honeycomb backing, creating a suction effect

EASY & DURABLE

EASY TO MAINTAIN

Omnisports floorings are highly resistant, designed to provide durable surfaces and to reduce maintenance costs.

- Unique product construction with solid, heavy and dense calendared sheet: resistant surface to indentation and impact.
- Engineered TopClean XP surface treatment for easier and ecological maintenance: reduced water and chemical agent consumption.

EXCEPTIONAL RESISTANCE TO INDENTATION MARKS AND ROLLING LOAD

REDUCED MAINTENANCE COSTS

EASY MAINTENANCE

RESISTANT TO STAINS AND SCRATCHES

GREENLAY

Holding of the welding with double-sided tape: Tarkotape
- along the weldings

Compliant & efficient

- EN 14904 compliant
- Over 1 million m² installed over 20 years
- 10 year warranted installation method

Convenient & practical

- Easy access to subfloor after installation with no damage to the subfloor
- Resistance to rolling load

Quick & easy to use

- Reduced installation time by 20%
- Immediate setting in traffic

Answering jobsites needs

- Resistance to rising moisture (up to 10% CCM)
- Compatible with heated subfloor
COMPACT
2 MM

IDEAL FLOORING FOR TRAFFIC AREAS
- High mechanical resistance to indentation: 0.10mm.
- Easy circulation of rolling loads.
- Suitable for installation with Lumaflex sub-construction: area-elastic system, ideal for light multi-use purposes.

Recommended applications:
Traffic areas: corridors, lockers*, entrance halls, meeting rooms, cardio (bikes, treadmill, rowing machines...) etc.

SPEED
3,45 MM

IDEAL FOR WALKING AND ACOUSTIC COMFORT IN FITNESS, LEISURE AND WELLNESS AREAS
- Walking and acoustic comfort.
- Good resistance to indentation and rolling loads.
- Suitable for installation with Lumaflex sub-construction: combined-elastic system, ideal for multi-sports facilities.

Recommended applications:
Fitness, wellness centres, boxing, etc.

CHOOSE YOUR COLOURS

DANCEFLOOR
3,45 MM

THE IDEAL SOLUTION FOR DANCE STUDIOS PROFESSIONAL AND AMATEUR CLASSIC BALLET

- Excellent grip.
- Reduced risk of injury.
- Increased performance.

READY TO USE ROLLS FOR BADMINTON PRACTICE

To be laid over existing flooring. Covers confusing existing game lines for optimal badminton practice experience.

TABLE TENNIS
3,45 MM

TEXTURED SPORTS SURFACE IDEAL TABLE TENNIS PRACTICE

- Balanced grip thanks to textured surface with specific embossing.
- Superior resistance to indentation marks: tables...
- Underfoot comfort.

P2
Extreme protection, comfort and performance

SPORTS FLOORING
(EC 14904 CERTIFIED)

Adequate balance of friction and grip control. Specific engineered surface embossing.

Very high resistance to scratches and easy maintenance. TopClean XP™ treatment.

Exceptional resistance to wear. Pure transparent vinyl wear layer.

Dynamic colours and realistic decora with high definition printing for a perfect wood surface appearance and built-in unis for higher colour intensity.

Superior dimensional stability (<0.10%). Unwoven glass fibre.

High resistance to indentation and tearing. Solid homogeneous calendered sheet made of recycled vinyl.

Comfort, safety and sound reduction. High-density closed-cell foam with engineered honeycomb backing.

INSTALLATION

instructions

Our Omnisports floorings require minimal maintenance and according to EN 14904 tests, offer increased adhesion regardless of whether its surface is clean or dusty.

Floor unevenness: It has to be checked to make sure all holes and bumps do not exceed 6mm height and depth under a 3m ruler.

*Special, no stock.
**MAINTENANCE**

*Instructions*

Omnisports sports surfaces are treated with TopClean XP™. It's a UV-reticulated polyurethane surface treatment, which offers excellent resistance to wear and tear due to daily sports practice.

**GENERAL ADVICE**
- Installation of doormats at the entrance of the gymnasium to catch humidity, dirt, dust etc. They must be at least 3 strides long (approx. 1.5m).
- Usage of appropriate shoes: white soles dedicated to indoor sports practice.
- Non sporting events (exhibitions, concerts, dinners...) in sports hall: sports flooring protection required.
- Heavy rolling load (trolleys, forklift etc): sports flooring protection required - across all the rolling area by using double layer of plywood (19mm).
- Always follow manufacturers’ recommendations (detergent, cleaning machine...).

### SETTING IN TRAFFIC

<table>
<thead>
<tr>
<th>Actions</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Removing dust and gravel</td>
<td>- Dry cleaning - Vacuum cleaning</td>
</tr>
<tr>
<td>2. Cleaning</td>
<td>- Mechanical cleaning with scrubbing machine red pad, medium speed - and water vacuuming, or combined machine - User neutral detergent (pH 7/8) or alkaline detergent (pH 8/10) in case of heavy soiling - If an alkaline detergent (pH 8/10) is used, the flooring should be rinsed with water and water vacuumed</td>
</tr>
<tr>
<td>3. Stain removal</td>
<td>- A detergent should be used to remove work site stains (glue, paint...) according to the nature of the stain - Do not use abrasive pads</td>
</tr>
</tbody>
</table>

### DAILY CLEANING

<table>
<thead>
<tr>
<th>Actions</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Removing dust and gravel</td>
<td>- Dry cleaning - Vacuum cleaning</td>
</tr>
<tr>
<td>2. Cleaning (if and where it's necessary)</td>
<td>- With flat or micro fibre mop or vacuum or with a combined machine (red pad, medium speed) or - User neutral detergent (pH 7/8)</td>
</tr>
<tr>
<td>3. Stain removal</td>
<td>- For stubborn stains on the floor (for example handball players' resin) on goal posts, on seats etc.: use an alkaline detergent (pH 13/14) dilution 20% in spray, let it work during 1 minute and sweep with a white clean cloth</td>
</tr>
</tbody>
</table>

### PERIODICAL CLEANING

<table>
<thead>
<tr>
<th>Actions</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Light soiling</td>
<td>- Machine cleaning: using a scrubbing machine fitted out with white soft brushes or red pads at medium speed or use roto cleaner - Use detergent neutral or alkaline (pH 7/9) with a 1% dilution</td>
</tr>
<tr>
<td>2. Heavy soiling</td>
<td>- Machine cleaning using a scrubbing machine fitted out with white soft brushes or red pads at medium speed, or use roto cleaner - Use alkaline detergent (pH 13) with a 10% dilution - Apply the mix without vacuuming and let it soak into the floor for 5 minutes and then vacuum the surface - In case of chalking white marks, rinse with clear water</td>
</tr>
<tr>
<td>3. Stain removal</td>
<td>- For stubborn stains on the floor (for example handball players' resin) on goal posts, on seats etc.: use an alkaline detergent (pH 13/14) dilution 20% in spray, let it work during 1 minute and sweep with a white clean cloth</td>
</tr>
<tr>
<td>4. Gloss restoration (exceptional)</td>
<td>- In areas where gloss/varnish has been worn, use buffing machine - white pad, high speed - Please call technical services before to make sure this won't affect the sports characteristics of your surface</td>
</tr>
</tbody>
</table>

Tarkett’s instructions regarding installation, cleaning and maintenance should be observed. Please contact Tarkett at the address shown for these instructions.
**TARKETT SERVICE**

**TO MEET ALL OF YOUR EXPECTATIONS**

---

### TAILORED OFFER

<table>
<thead>
<tr>
<th>Roll length on demand</th>
<th>Tarkett can handle your length requirement in order to give you and your project the personal attention to detail you deserve:</th>
</tr>
</thead>
</table>
| Minimum quantity 550m² (on global order)* | ■ Available by «multiple» of 10cm  
■ Waste reducing  
■ Time saving |

---

### NEW! CUT SERVICE

| Flexible | ■ Available for all product profiles on stock rolls.  
■ Minimum quantity 1 roll. |

---

### CUSTOMIZED OFFER

<table>
<thead>
<tr>
<th>Create your own color</th>
<th>Create your own colour based on other Tarkett collections or from RAL/ Pantone/ NCS proposal.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum quantity 800m² (+/-10% by colour)</td>
<td>Leadtime 7 weeks</td>
</tr>
</tbody>
</table>

---

### RESTART

| Comprehensive collection and recycling service of flooring off-cuts. | ■ Optimizes jobsite waste management.  
■ Contributes to reducing jobsite waste.  
■ Guarantees traceability of collected off-cuts.  
■ Integrates sustainable development and anticipates European regulation requirements. |

---

*Up to 5 weeks leadtime*
